Distributed-solar inverter inspection: Cloud Ridge Solar Field

Revision v1. Record EV-SOL-06.

Site: Cloud Ridge Solar Field; asset: grid-tied inverter F.

EV-SOL-06 Cloud Ridge: grid-alarm voltage 219 V; review within 22 min.

under peak load, save the waveform and isolate the branch when the threshold is crossed; log readings in SOLAR-LOG-056.

LINK-013 assembly point: gate 6 at Cloud Ridge.
