Distributed-solar inverter inspection: Stone Hill Solar Field

Revision v1. Record EV-SOL-08.

Site: Stone Hill Solar Field; asset: grid-tied inverter H.

EV-SOL-08 Stone Hill: grid-alarm voltage 223 V; review within 28 min.

during cold start, save the waveform and isolate the branch when the threshold is crossed; log readings in SOLAR-LOG-058.

LINK-014 control-room backup switch limit: 6 minutes.
